**HYDAX**  
HYDRAULICS   MACHINES   ROBOTS

We are the pioneer manufacturers of Hydraulic Accessories in India. Since 1979, we have been serving the needs of the hydraulic industry worldwide and have recently began manufacturing Hydraulic Power Packs.

We are offering:

### **Demo Power Pack for Educational Institutions**

HYDAX Demo power packs have a transparent body in a SS framework in order to learn about the working mechanism in a practical manner. It comes fitted with basic reservoir fittings such as a Suction Filter, Return line Filter, Filler Breather, Level Gauge, Pump, Motor and Flexible Drive Coupling. Additional functions can be added on request.

### **Customized Power Pack**

Hydraulics reservoirs are the storage vessel for the oil required to operate the hydraulics system components, such as hydraulic actuators and ensure this oil is stored and maintained in the best possible conditions. We make reservoirs as per customer requirements.
